

CRYPTOWOKE FINANCIAL SUSTAINABILITY MOVEMENT w/M'BWEBE ISHANGI WEBINAR/MASTERCLASS OVERVIEW

Are you in the **RED**, trying to be in the **BLACK** but having a hard time making **GREEN**?
#LiveOffYourSavingsAndInvestments creating a path to Financial Sustainability!

- ✓ **FACT:** There are more people with college degrees unable to find work in their field of study than ever before.
- ✓ **FACT:** Those with jobs are overworked and under paid but afraid to leave because they've been trained with the "worker-bee" mindset.
- ✓ **FACT:** For the years sacrificed working for someone we trust our retirement to 401k's, Savings, CDs, and Bonds not realizing all it takes is a recession that can wipe it all away.
- ✓ **FACT:** The older you get the closer you are to losing your job. Downsizing and outsourcing for cheaper labor (including the increased use of AI and robotics) has become the norm. Tenure no longer holds weight as we see the job security our parents had are a thing of the past.
- ✓ **FACT:** No employer is obligated to pay you for the rest of your life. Eventually, you will be laid-off, a victim of downsizing, or fired.
- ✓ **FACT:** Every 30 days we all have living expense bills that are due (mortgage/rent, car notes, credit cards, t-bills, food bill), When the day comes when you no longer have a job, how will you sustain yourself?

If you agree, you are ready to join the Cryptowoke Financial Sustainability Movement!

Sustainability Movement

We live in a world where the one thing we deal with most, we have the least understanding of... that being money.

A former Brand Marketing Strategist for the NBA, Ishangi demystifies Financial Literacy and shares how he went from loyal, corporate employee to financially sustainable living off his savings and investments.

According to dqydj.com as of Feb.2019, there are 14,814.453 millionaires in the United States, and counting! Although this is assuring to know, Ishangi's concentration is becoming Financial Sustainable—meaning each month your total expenses are met, with the only recurring being your living expenses.

So the question really isn't about how many people are millionaires, but actually, how many are financially stable? We all have a better chance of attaining this level of living than that of a millionaire! And with baby-steps, being sustainable definitely can lead you to becoming a millionaire!
