About Us

The Duende Natural Group is about creating a sustainable land project with lush bio diverse Costa Rica as its backdrop. It is founded by a group of friends and families from Brooklyn, NY, whose aim is to build and create a resilient future for ourselves and the community. This will be accomplished through acquiring land to build a rustic and earth friendly eco-resort that will be used to facilitate adventure and cultural tours.

Our Mission

-  Provide a destination for eco conscious travelers to enjoy a close intimacy with nature. Have visitors participate in a wide array activities that use nature as the classroom and connects them with the spirit of holistic living
-  Use earth based living skills, nature awareness, and Indigenous practices to create an environmental stewardship between our visitors, members, students and the Earth.
-  As part of our Eco-natural education tours and programs YOU will be "learning by doing" and WE will be "guiding not giving".
-  Impart a set of skills that supports the health, happiness and self-reliance of individuals, families, communities, ecosystems, and future generations.

"Inspiring a path to pure life."
