• January 8, 2013 — **BLACKED-OUT THROUGH WHITEWASH**

<http://tinyurl.com/qhx7vcn>

The latest Apple iPhone commercial has Venus & Serena Williams dressed in white as well as looking like Michael Jackson! This continues to prove white america still has a fixation with dark-skinned melanated Afrikanz! They continue to show they are not beyond bleaching skin to promote their product! What's worse, that the Williams' would allow themselves to be reverse 'Al Jolsened'!

• January 31, 2013 — **KNOW THYSELF THROUGH KNOWLEDGE OF SELF!**

<http://tinyurl.com/om764sp>

Walking to the train today in Brooklyn and I see a white guy wearing a Rastafarian ballcap. Just when I'm ready to stupe my teeth, I see a young Afrikan male wearing a black bubble goose with the words 'Germany' on the back. One knowz himself, doesn't like it and tries mimicking his parents, the other has no clue of his historical heritage! What a way to kick off Black History Month!

— Know thyself through Knowledge of Self!

For many christianz, Ash Wednesday is a day they place ashes on their forehead in the sign of a cross. But isn't the 'mark' they wear the same God put on Cain's forehead after he murdered his brother Abel?! Was not that 'mark' a sign that alienated Cain from everyone in the form of a punishment?! Are christianz themselves portrayin' Cain? Read about this hallow-day...

But isn't the 'mark' they wear the same 'mark' of the fabled story of 'God' putting a 'mark' on Cain's forehead after he murdered his brother Abel?! Was not that 'mark' a sign that alienated Cain from everyone as a form of punishment?! Are christianz themselves portraying Cain'?

<http://tinyurl.com/pssdhkh>

Easter is truly one of the most effective creationz of white supremacy! Not only does it reinforce the christian myth of a white jesus, it also perpetuates the false claim of genetic superiority with a white Easter bunny! To top it off, every Easter Sunday, the Pope sits in the Vatican and deliverz his speech to the world, speaking of being honorable and holy, while at the same time faces a stolen Afrikan Tekhen that standz directly in his view!

• April 15, 2013 — DGT @ 20 : REFLEKSHUNZ ETERNAL

<http://tinyurl.com/mc9epgz>

Before I began DGT, I didn't see it as a magazine, it was just me sharing thoughts I needed to get off my chest. I wasn't part of any religious group but standing in front solo was still taboo; yet I had somethin' to say; and in most cases, in direct contrast to the usual flow of the cypher. But who had time to stand all day listening? Realizing this, writing became the natural choice.

• May 1, 2013 — KWEISI MFUME: THE BOULE'S KEITH SWEAT

<http://tinyurl.com/ltfghzw>

An interesting note about Kweisi Mfume is his acceptance into the Boule' outside the traditional manner. Cokely pointed out in order to become a member of the Boule', you must be in one of the BGLOs (Black Greek-Lettered Organizationz: Alpha Phi Alpha, Kappa Alpha Psi, Omega Psi Phi, or Phi Beta Kappa—not sure about Iota Phi Theta.).

• May 3, 2013 — WHY THE BOULE' FILES?

<http://tinyurl.com/n74ka4g>

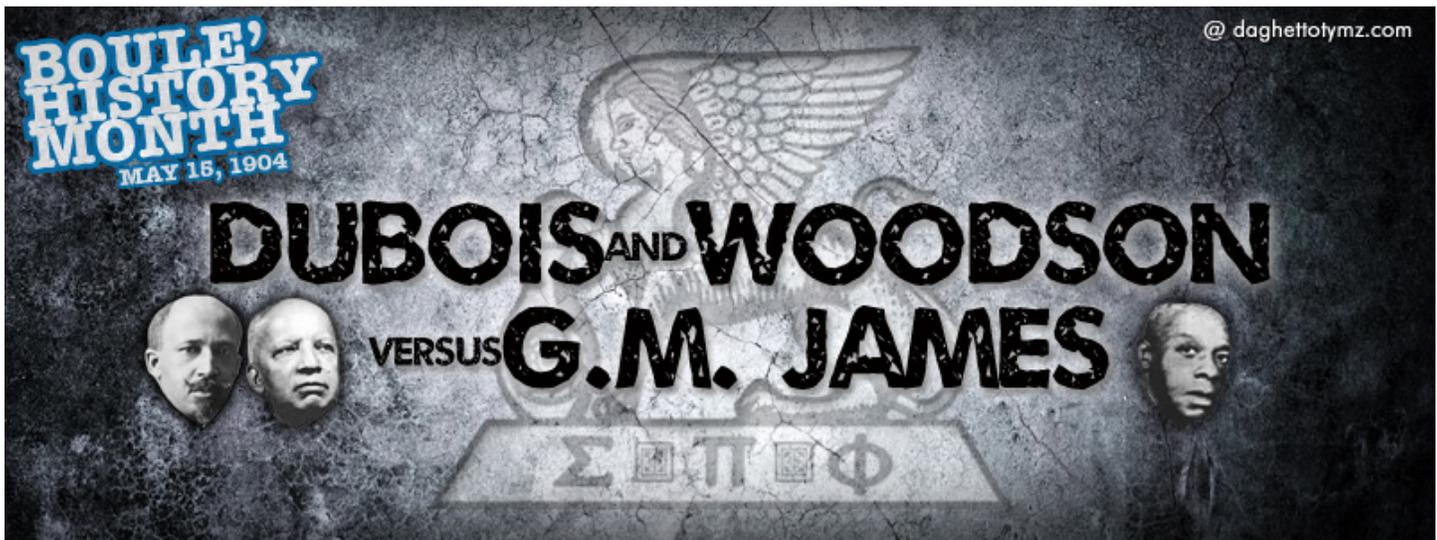

My reason for writing and speaking about the Boule' aka, Sigma Pi Phi Fraternity, Inc. and black greek-lettered fraternity and sorority organizationz (BGLOs) is simple, we have not been told the whole story.

• May 6, 2013 — THE TETRAGRAMMATON & THE BGLO PAN-HELLENIC COUNCIL

<http://tinyurl.com/nkdqll0>

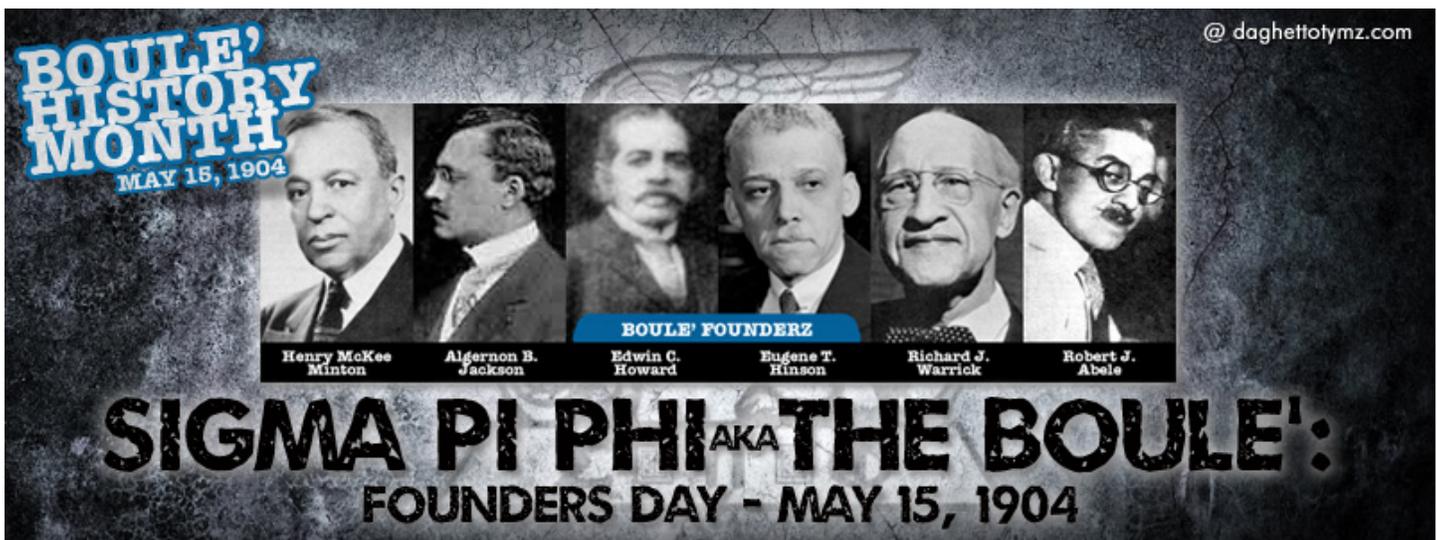

It is no coincidence that the black version of the Illuminati, the Boule' also has the tetragrammaton on it's shield that, obviously, has a double meaning: 1)for it's ties to white secret societies and 2)for the original 8 black greek fraternities and sororities, with itself being the the center piece.

• May 13, 2013 — CARTER G. WOODSON & WEB DuBOIS vs. GEORGE GM. JAMES

<http://tinyurl.com/pznokjj>

One of the thingz that weighed on me was the stories of George GM. James, Carter G. Woodson and W.E.B. DuBois. James, a master mason, Woodson a member of the fraternity, Omega Psi Phi and DuBois a member of Alpha Phi Alpha—and both were also exiled memberz of the Boule'.

• May 15, 2013 — BOULE' FOUNDERZ DAY: MAY 15, 1904

<http://tinyurl.com/qcwlkgl>

Today marks the Boule's 109th Anniversary and this is in no way a time to celebrate! Read our entire series and learn of the founding 6 memberz desire to as, one founder Dr. Henry McKee Minton of Philadelphia stated on page 28 of their history book, make this organization just like Skull&Bones at Yale University, the 2nd chapter of a german-based white supremacist organization (the Illuminati) which was founded in Ingolstadt, Germany May 1st, 1776—the same day over 4200 miles across the shore, America's forefatherz signed the Luciferian Conspiracy!

• May 15, 2013 — R.R. MOTON: THE MAKING OF A SELLOUT

<http://tinyurl.com/ngvxyol>

This idea was revolutionary monumental, for we knew Garvey spoke often of how Afrika was being raped of her resources by whites:

*"If the oil of Afrika is good for Rockefeller's interest; if iron is good for Carnegie trust; then these minerals are good for us. Why should we allow wall street and the capitalist group of america and other countries exploit our country when they refuse to give us a fair chance in the countries of our adoption? Why should not Afrika give to the world its black Rockefeller, Rothschild, and Henry Ford?"*

What Garvey knew was that in Liberia, there were these massive trees that drip this sap that's used to make tires. The Rubber Industry was just beginning to boom and Garvey saw this as an opportune time for Afrikanz to have a stake in the global economy using a natural resource from our homeland. The result would be economic growth, employment, and most importantly, independence. But with The Round Table Group's (RTG, aka the Illuminati) servant, the Boule' on watch, it remained a dream.

• May 29, 2013 — BOULE' & 1912: A BRIEF DISCUSSION WITH A MEMBER OF OMEGA PSI PHI  
<http://tinyurl.com/q5k2ys2>

A member of Omega confronts M'Bwebe Ishangi about their shield and founder, Ernest Just. The Boule's history book, 'History of Sigma Pi Phi: First of the Negro-American Greek-Letter Fraternities', written by Boule' and Alpha Phi Alpha member, Charles H. Wesley, pgs 75-79 discusses the formation of Epsilon Boule' in Washington, DC on "the third Friday in February, 1911." Page 77 lists their charter memberz, which includes Ernest E. Just.

• May 30, 2013 — THE BOULE' BLACK MEDIA & ZIONIST'S  
<http://tinyurl.com/nn9vdgy>

Boule' Master researcher, Steve Cokely believes the Boule' was utilized effectively to limit the power and influence of Marcus Garvey. A meeting of all the prominent Black newspaper families and editorz from The Amsterdam News, The Chicago Defender, The Pittsburgh Courier, The Baltimore and Washington Afro-American Newspaper took place in Washington, D.C. took place in 1918 (that same year, on August 17 Garvey began publishing the widely distributed Negro World newspaper) where Masonic orderz were given to either not discuss Garvey or deem him persona non grata, so that no one would follow him and his Back to Africa Movement. Why? Why would Afrikan men want to block another Afrikan man's mission for repatriation?! The reason is obvious... they negroes felt nothing was better than what they currently had on their masterz plantation!

The Boule' is in your town! Look at their national chapter roster (up to 1994), you may recognize a name or two! Although we may be scratching the surface of this group, enough has been presented to question their allegiance: to Afrikan people or global white supremacists. It's clear to me just by looking at their logo.

You will notice the sphinx with his right paw covering a vase. Inside the vase we see a circle-within-a-circle with a dot in the middle. This has two meaningz. First, it is symbol of the Round Table Group or more precise, the (Cecil) Rhodes / (Lord) Rothschild Foundation's official logo. Second, it is the symbol of Ra, our ancient Sun God, or Heru of the original trinity. The outer circle-within-a-circle is closing off the power of Ra, along with the paw to further conceal the truth of our ancient history! We also find two tetragrammatonz in between the greek letterz 'Sigma', 'Pi', and 'Phi' symbolizing the Boule' plus the eight subordinate black greek-lettered organizationz (alpha phi alpha, kappa alpha psi, omega psi phi, phi beta kappa, alpha kappa alpha, delta sigma theta, zeta phi beta, sigma gamma rho).

IS IT...

# HISTORY OR HIS-STORY?

• June 10, 2013 — IS IT HISTORY OR HIS-STORY?

Whenever I read history books, I take note to see if they acknowledge Afrika in any way. Most will mention “ancient” wayz and customz but will attribute them to Asia. Otherz will begin with Greece and plagiarist’s like Plato and Aristotle. This allowz me to see just how genuine the presenter (author) of the material really is. The most disrespectful thing a historian can do is not mention Afrika. Hence, they are both disrespecting themselves and their profession. A true vanguard of actual factualz they are not.

<http://tinyurl.com/kvnt4pg>

• June 17, 2013 — JUNETEENTH JEWEL WEEK: THE POWER IN A NAME WHEN CALLED UPON BY SOMEONE ELSE

<http://tinyurl.com/l7mhjm8>

Is it me or does it irk you when non-Afrikanz choose to put themselves in positionz of leadership for Afrikan causes? I mean, if it's not at our most sacred of ritualz like the Ancestral Tribute at Coney Island in Brooklyn, NY, they're doin' documentaries like 'Rise!'

If you study the nature of YT, they simply can't humble themselves enough to just be a bystander. They start out comin' across all innocent and shit, next thing you know, they done bolted to the front of the line, tryin' to house -ish! Picture a brotha comin' to a KKK rally as a bystander, then eventually, bein' the host or lead speaker at the rally... YT would see that would never happen!

• June 18, 2013 — JUNETEENTH JEWEL WEEK: MAANGAMIZI VS. MAAFA

<http://tinyurl.com/mvucfeo>

The so-called jew talks of the holocaust they went through during World War II at the handz of adolf hitler. They estimated a couple million of their kind were viciously murdered for racially oppressive and experimental meanz. Not long ago, they constructed a museum so the world will never forget what was done to them.

Which leadz me to the question, "where's our museum so the world never forgets our holocaust?!" The descendants of Afrika at home and abroad continue to experience this ongoing holocaust for thousandz of yearz, including the invasionz that happened in the Nile Valley, which lead to the dissection of the Afrikan family into numerous tribes and languages. Afrikanz have been victimz of malicious and callous crimes ever since the caucasoid realized we were the descendants of the founderz of mathematics, arts and sciences, chemistry, astronomy and so on.

I applaud the zeal and dedication of those who organize juneteenth celebrations around the country. It is a commendable effort to educate our people about this aspect of our history in America. This is the latest chapter of the ever-pressing growth of injustice for profit that's finally beginning to sprout from its roots, cracking the white cemented pavement by modern slaveownerz who set up a system that has reaped benefits in probably the gazillionz since the Afrikan athlete has been "granted" access to play collegiate and professional sports.

<http://tinyurl.com/q5qhkg6>

Let's be clear, if the life of Columbus continues to be celebrated, then hedz should be made aware of his entire life. By his own admission, he described himself as a slave trader — probably having sent some 5000 more than any other individual, starting first in Afrika then bringing this practice to the Americas — and a conquerer. I think he was bein' modest. I would add he was an invader, pirate, savage, and probably the worldz first serial killer! I mean, this man should be added to the notorious list of murdererz which include Napoleon, the Rothschild click, Cecil Rhodes, Hitler, Stalin, Jim Jones, even the (George) Bush family (to name a few)!

When you see the word 'LISTEN', you can also see the word 'SILENT' by simply scrambling the letterz.

One of my callings have been this history behind America's first black fraternity, the Boule', aka Sigma Pi Phi. Having followed Ancestor Steve Cokely's research, I have been researching and writing about the Boule' since 1997. What I've found is my most resistance has come from memberz of BGLOs (Black Greek Lettered Organizationz) who find it easier to disregard everything said rather than conducting their own due diligence.

<http://tinyurl.com/k7l5yp5>

What is a free-thinker or better yet, what isn't it? It is NOT a person who believes without question. It is NOT a person who commits to a mindset because of tradition or because that is what everyone believes. A free-thinker is NOT one who confines all their knowledge-base on a few books or a just over 2000-year-old man-made religion and feelz there are just some questionz that aren't meant to be known.

<http://tinyurl.com/ldu6ar9>

It's Halloween! A time where many condone the eurocentric custom of celebrating evil while increasing the already above-drastic level of sugar consumption. And while this kicks off a concerted effort to not only enslave the diets of the masses and the wallet, the historical significance sugar has had on the enslavement of Afrikan people must be noted. So before I can even get into what sugar does to our bodies, I must dive into just how far the greed for this substance has extended... the core nucleus of the Atlantic Slave Trade!

Do you know the history of sugar and its relation to Afrikan people? You'll find it's more a trick than a treat!

<http://tinyurl.com/n29tlxx>

We have microcosmic replicas of the human body all around us. You think computerz today are fast? You sit at your computer typin', switchin' from Microsoft Word to Photoshop to iTunes, and you're impressed by how swift your computer performz under software applicationz that require more and more RAM and memory from your hard drive. True, a 100GHZ (gigahertz) processor on a computer seemz lightning fast (as if lightning is that SLOW), but the human processor is infinitely higher than 999EHZ bytes. To date, there's no man-made machine that can exceed the level of a the human body! Havin' an inner-standing of this also points out how information is transferred by electro-magnetic frequencies. Not only do they transfer data, or matter; they can also instruct and decisively control a thought or action. Case-in-point, the nature of this piece, 'What Frequency R U On??'

If you're aware of the 7 Djhuitic Principles, the 2nd, Correspondence is one of my favorites. It speaks of how everything is linked, both as a smaller part of a bigger thing and vice-versa. It got me to thinking about how fragile life as we know it is on this planet. We worry about natural disasterz, from hurricanes to man-made atrocities; and whitefolks carved up the planet creating "illusion-turned-eurocentric-law" that one cannot travel the earth without clearance of passports or Visa's. With all this man-made nonsense, it can make one feel separated from the Unknown. This is purely a european mindset—a feeling of separation anxiety from the bigger picture. But if we applied Correspondence, we would see we are not alone.

## ABOUT THE AUTHOR

M'Bwebe Aja Ishangi is a humble student and follower of the Pan-Afrikan movement. He is a qualified and powerful speaker who has dedicated his life to working and speaking out forcefully for the rights and empowerment of the Afrikan Diaspora. His specialty is developing creative arts and educational projects that strengthen the mindz of Afrikan people in general, youth and students in particular. He does this with a simple and practical style that clearly explainz all areas of life including self, history, health, economics, spirituality, creativity, and politics.

M'Bwebe Aja Ishangi

M'Bwebe is an infopreneur, writer, artist, graphic and web designer, videographer, orator, and creator/publisher of Da Ghetto Tymz magazine and DaGhettoTymz.com — a publication and website that annihilates false perceptionz of the Afrikan experience chauffeured by the western-eurocentric mindset, and DGTv — a video-based website that is an edutainable experience like none other.

His educational background includes self-education starting in 1990, University of Pittsburgh in History, and three yearz working with the Educational branch of the National Aeronautics and Space Administration (NASA). Since 1993, he's been using his craft, voice, and writingz to broaden and deepen how people think of current and historical topics from an Afrikan perspective.

M'Bwebe (an acronym meaning, Mind & Body Working Equally exudes Blessingz Eternal — meaning, allowing his mind and body (including spirit) to work equally, the blessingz will continue to come in abundance) started with learned information from renowned edutainer, KRS-One, an artist who bringz a conscious element to Hiphop. After three yearz of underground study, M'Bwebe felt he was ready to share what he learned publicly. Starting out speaking to people in the streets, he needed to create another outlet that would enable the message to reach an even larger audience.

He started putting his thoughts on paper and submitted them to several major national publicationz. The negative response he received from the editorz and publisherz inspired him to develop a newsletter, Ghetto Tymz in April 1993. July 1994 the newsletter flourished into a national publication, Da Ghetto Tymz magazine — DGT for short. January 1996 marked DaGhettoTymz.com's premiere on the internet. Spring of '98 also marked the birth of DGT NTR-Prizes, which is where all his projects including his lectures, DGT, DGTv, and Nebulation Studios fall under. April 2003, marked DGTs 10th Year and its 100th published issue — a feat rarely achieved by an Afrikan-owned publication that is not owned and dictated by white advertisers. January 2006, DGTv was born. April 0f 2013 marked 20 Yearz of Da Ghetto Tymz (<http://daghettotymz.com/20th/20.html>) and he is diligently working on next 20 yearz.

He published his first book, 'Analitikul Cogitationz' (<http://daghettotymz.com/analitikul/analitikul.html>) in 2007 giving the reader a closer look at the connection spiritual encounterz have with consciousness.

In 2014 he will be releasing his 4th book, 'The Unknown-Known: Enduring the Seldom Quest of Questionz' (<http://daghettotymz.com/author/mbwebeishangi-books.html>), a book going deeper on the topic's spirituality and metaphysics along with Season 4 of DGTv.

M'Bwebe believes his greatest contribution to date is continuing the promotion of self-reliance through creative business development, developing his love for art, drawing, graphic design and speaking, and having the ability to construct his own enterprise addressing real problems and providing alternative solutions that raise self-esteem through knowledge of self.
