It is my pleasure to provide this brief Electronic Press Kit of a man who possess' the ability to challenge one's thinking to the point of realignment where one becomes socially, culturally, politically, *and* spiritually aware of who they are, where they are going, and ultimately their reason for being.

M'Bwebe is an orator , infopreneur, author, visual graphic artist and web designer, and videographer. With all these talents, M'Bwebe created and publishes *Da Ghetto Tymz magazine* in 1993 and *DaGhettoTymz.com* (daghettotymz.com) in 1996; a publication and website that annihilates false perceptions of the Afrikan experience chauffeured by the western-eurocentric mindset. His .tv site, *DGTv* ([daghettotymz.com /dgtv.html](http://daghettotymz.com/dgtv.html)) is a video-based website that is an edutainable experience like none other.

M'Bwebe [*Mind & Body Working Equally exudes Blessingz Eternal — meaning, allowing his mind and body (including spirit) to work equally, the blessings will continue to come in abundance*] started with learned information from renowned edutainer, KRS-One, an artist who brings a conscious element to Hip-hop.

He is a humble student and follower of the Pan-Afrikan movement and a qualified and powerful speaker who has dedicated his life to working and speaking out forcefully for the rights and empowerment of the Afrikan Diaspora. His specialty is developing creative arts and educational projects that strengthen the minds of Afrikan people in general, youth and students in particular. He does this with a simple and practical style that clearly explains all areas of life including self, history, health, economics, spirituality, creativity, and politics.

Please take a moment to review the valuable information included in this Electronic Press Kit. Our ambition is to create a working relationship with you.

Thank you for your time and your interest.

Best regards,

M'Bwebe Aja Ishangi
